25X1A Subject: "Conversation with [redacted]
[redacted] Regarding So-called Foster Panel" (DPD 0487-62)
b. Memo for DD/P from ASST CH/DPD, Dated 23 January 1962;
Subject: "Further Discussions with [redacted] Regarding

25X1A

1. I am exhuming the two references which were returned to me 27 February by Dick Bissell simply to inform you regarding our dealings on the subject of OXCART, CORONA, MURAL as they bear upon the scope of the Foster Panel's current inquiries. You will see in paragraph four of the most recent reference that I have taken note of your association with this group.

2. In returning the papers to me, Dick said that it was his present view that he did not favor surfacing these Projects to the Panel. In your present capacity I am inclined to believe you may agree, although when time permits, you may want to go into this a little more fully with us. At least these documents will give you the background of our views on this matter.
